REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art of record teaches or renders obvious a liquid crystal device comprising: a first transparent substrate; a second transparent substrate opposed to the first substrate; a liquid crystal held between the first and second substrates; a light source provided on a side of the first substrate, which is opposite to the liquid crystal side thereof; a transfective electrode layer arranged on the first substrate opposite to the second substrate; a polarizer provided on a side of the second substrate, which is opposite to a first substrate side thereof; a first retardation plate arranged between the polarizer and the second substrate; and a second retardation plate arranged between the polarizer and the first retardation plate; wherein a twist angle of the liquid crystal is 230 to 260 degrees; a minimum and maximum $\Delta n d$ (product of optical anisotropy Δn and thickness d) of the liquid crystal are 0.85 microns or less and 0.70 microns or more, respectively; $\Delta n d$ of the first retardation plate is 150. \pm .50 nm or 600. \pm .50 m; and $\Delta n d$ of the second retardation plate is 550 \pm .50 nm. The prior art of record does not teach nor suggest, in combination with the limitations supra, an angle θ_1 formed by a transmission axis or absorption axis of the polarizer and an optical axis of the second retardation plate is 15 to 35 degrees; and an angle θ_2 formed by an optical axis of the first retardation plate and the optical axis of the second retardation plate is 60 to 80 degrees.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James A. Dudek whose telephone number is 571-272-2290. The examiner can normally be reached on 9:00-5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert H. Kim can be reached on 571-272-2293. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
